GENERAL CLEANING
Excel 88 is used as a general all-purpose cleaner. Using 1 part Excell 88 to 30 parts water. With sprayer apply to counter tops, office, and home furniture, painted walls, auto upholstery, light fixtures, all appliances, etc. Then wipe dry with a clean cloth or towel. 5-1 dilution for tough problems such as rust, road tar, driveway cleaning, and soap buildup. Do not use in hot sun or while surface is hot - let it cool down.

LAUNDRY
Use 1 part Excell 88 to 10 parts water. Will be used as a pre-wash in your laundry (avoid satin, silk, and soft leather products), removing virtually every stain. The results are astonishing! Whether grease, oil, blood, inks, or makeup, Excel 88 will greatly reduce your laundry room or facility expenses.

CARPETS
Always test for colorfastness when using Excel 88 on carpet, upholstery, fabrics and spot cleaning. Can be used on an single stain spot. Removes grease, wine, liquor, pet stains, gum, oil, coffee, glue, paint, grape juice, candle wax, some inks, vomit, water stains and hair dye. It is very important to vacuum well before shampooing. When using a shampoo machine use 1 part Excel 88 to 30 parts water. Proceed as normal, following all the instructions on the machine.

Spot Removal: Use 1 part Excel 88 to 10 parts water. Apply to stain with spray bottle. Brush in if needed then wipe dry with a cloth. You may want to use a hair dryer, or fan, to complete drying.

BIODEGRADABLE & NONFLAMMABLE

TO REMOVE CHEWING GUM, CANDLE WAX OR HAND GLUE:
Take a sharp object such as an exacto knife and cut holes into the object. Lift the edges around the material to allow Excel 88 underneath. Spray on the holes, around edges, let stand for two minutes to emulsify. Then remove.

FLOORING
When using on your linoleum, tile, porcelain, ceramic, and/or cement, mix 1 part Excel 88 to 30 parts water in your mop bucket. Apply to floor over desired area for 2-3 minutes, then mop the area dry. Rinsing is not needed.

Heavy Wax Build-up: Use 1 part Excel 88 to 10 parts water. Let set for 5-10 minutes, then mop dry with a damp mop.

WINDOWS
Dilute 2 caps full of Excel 88 into a quart of water. Spray on and wipe dry with newspaper, cotton cloth, or paper towel. Leaves surfaces streak free.

ALUMINUM - STAINLESS STEEL - CHROME
Only use 1 part Excel 88 to 20 parts water. Spray on, then buff dry with a cloth or power buffer for your best results. Will leave a streak free surface.

Rust Removal: Use 1 part Excel 88 to 5 parts water. Spray on, let set for 5 minutes, then wipe clean. Scotch pad may be used if desired.

JEWELRY - DIAMOND / GOLD / SILVER
For ultimate care dilute Excel 88 at 1 to 10 part water in a bowl or jar. Immerse jewelry for five minutes. Remove & scrub with old toothbrush. Rinse with water and buff dry with a cotton cloth. The new shine and sparkle with amaze you.
